DAIRY-KING™

Milk Hose

DAIRY-KING™ milk hose is specifically designed for the suction and delivery of milk and other fatty foods. Hose complies with applicable with FDA and 3A requirements, as well as USDA requirements. The DAIRY-KING™ hose has a white, smooth, NBR rubber tube to ensure product quality, is odorless and does not alter taste. Its blue, smooth, cloth impression EPDM rubber cover offers abrasion-, ozone- and weather-resistance. This hose can be sterilized with steam at 230°F for 30 minutes. Meets FDA title 21 part.177.2600(f) for fatty foods, BfR, ADI free, D.M. 21/03/73, EC 1935 / 2004.

TECHNICAL DATA

Tube	White, NBR	
Cover	Blue, EPDM	
Reinforcement	High strength synthetic plies with steel helix	
Safety Factor	3:1	
Temperature	-40°F to +248°F	
Branding	TEXCEL® DAIRY-KING™ MILK HOSE 150 PSI (10 BAR) W.P TEMP. -40F TO 248F (-40C TO 120C) STERILIZATION AT 230F FOR 30 MINS FDA BFR ADI FREE	
Safety Note	It is recommended that all food grade hose be thoroughly flushed prior to initial use	
Features	FDA, USDA and 3A compliant
